

Do you have a job?

Do you need flexible Danish language tuition?

Can you come on Saturdays?

- **Do you want to learn Danish at an advanced level?**
- **Are you used to and good at studying?**
- **Are you comfortable with the use of computers and the internet?**

... then Sprogcenter Nordsjælland (the North Zealand Language Centre) can provide professional tuition based on a unique combination of e-learning (internet-based) and direct dialog.

E-learning

**SPROG CENTER
NORDSJÆLLAND**

The e-learning programme (internet-based)

... is an individually organised, computer-based home study course.

The home study comprises:

A. *Home tuition* based on interactive programmes, DVDs, CDs supplemented with books and other relevant texts.

B. *Homework* consisting of written assignments and preparation for oral presentations.

You must be prepared for a total workload of at least 9-10 hours per week.

All communication concerning the e-learning element takes place within a closed internet forum, to which only the teachers and students on the course have access.

E-learning requires a high degree of independence and self-discipline, but is also a highly efficient and flexible form of tuition because you:

- can repeat the exercises again and again as often as necessary,
- can organize your own study time to fit in with your other activities.

Direct dialog

....takes place every Saturday from 9.00-14.00 at Sprogcenter Nordsjælland in Hillerød.

Teaching is organised in small groups according to language level and we work with oral communication, pronunciation, listening comprehension, grammar and the presentation of social and cultural aspects of Danish society.

More general comprehension difficulties in connection with e-learning are discussed within the group, whilst individual problems are dealt with during individual question time between 14.00-14.20.

General information

You will need to have access to a computer with an internet connection.

All teaching materials, e.g. books CDs, DVDs for the installation of teaching programmes, are borrowed from the language school. (It is also possible to borrow a computer with teaching programmes already installed, but without internet access.)

We have frequent module tests and you have the opportunity to conclude your course of studies with "Prøve i Dansk 3" or "Studieprøven".

Enrolment

Apply to your local Kommune and get them to send a referral to Sprogcenter Nordsjælland.

If you are eligible for Danish language tuition, then your kommune will cover all the fees for the course. This means that it is free of charge for you to participate. Some local authorities do, however, charge a fee per module.
